# STRENGTHS

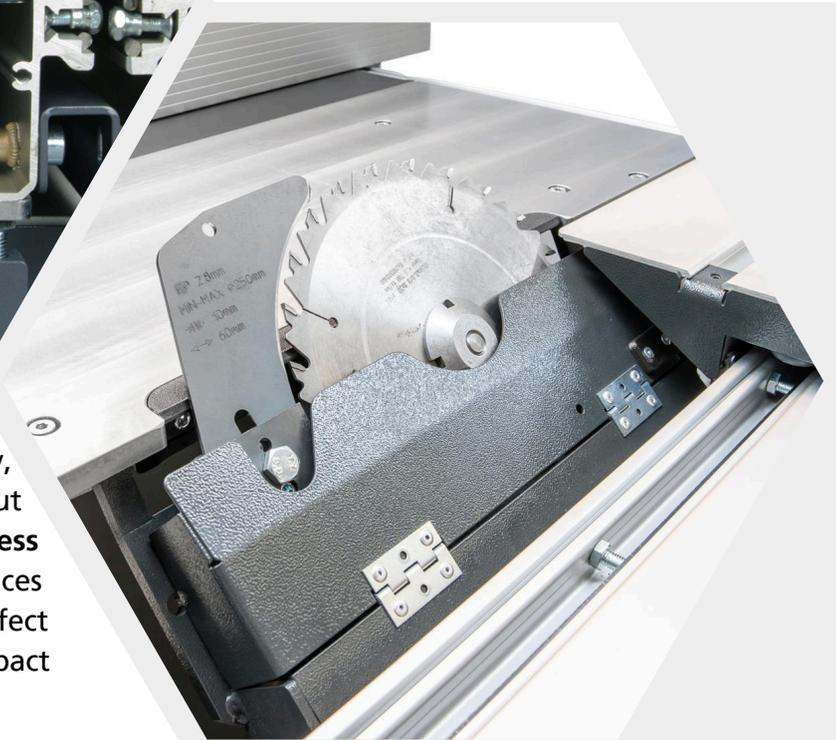

## SAW AGGREGATE

Our saw frame provides unparalleled stability, enabling cutting up to **85mm in height** without compromising precision. Engineered for **effortless saw blade replacement**, this saw bracket enhances efficiency and minimizes maintenance time. Perfect for users seeking high performance from a compact machine.

## SLIDING TABLE FEATURING THE BOSS SYSTEM

Experience precise professionalism in a compact form with our 800mm sliding table featuring our innovative BOSS solution. This system utilizes **solid steel balls on sharpened steel rods**, guaranteeing seamless, enduring performance.

## COMPACT YET POWERFUL.

This panel saw is specifically crafted for spaces where **efficiency** is crucial. Whether in **compact** carpentry workshops or a DIY enthusiast's garage, this saw is **versatile** yet ensures the necessary power and accuracy for excellent craftsmanship.

### PARALLEL FENCE

We recognize that each woodworker has distinct requirements. Hence, we provide the flexibility to select the cutting width and precision. This can range from a **compact 650 mm** to a more extensive **1200 mm** on a **professional round bar**.

### TABLE SUPPORT

Our support table is crafted for **simplicity** and efficiency, facilitating quick assembly and disassembly. It offers **additional support** for larger workpieces, enhancing stability and precision. Perfect for working with larger materials without occupying additional space permanently.

### WHEELSET

The wheel set enhances the flexibility and **maneuverability** of the KZ panel saw, enabling effortless movement to **various locations** within your workshop.

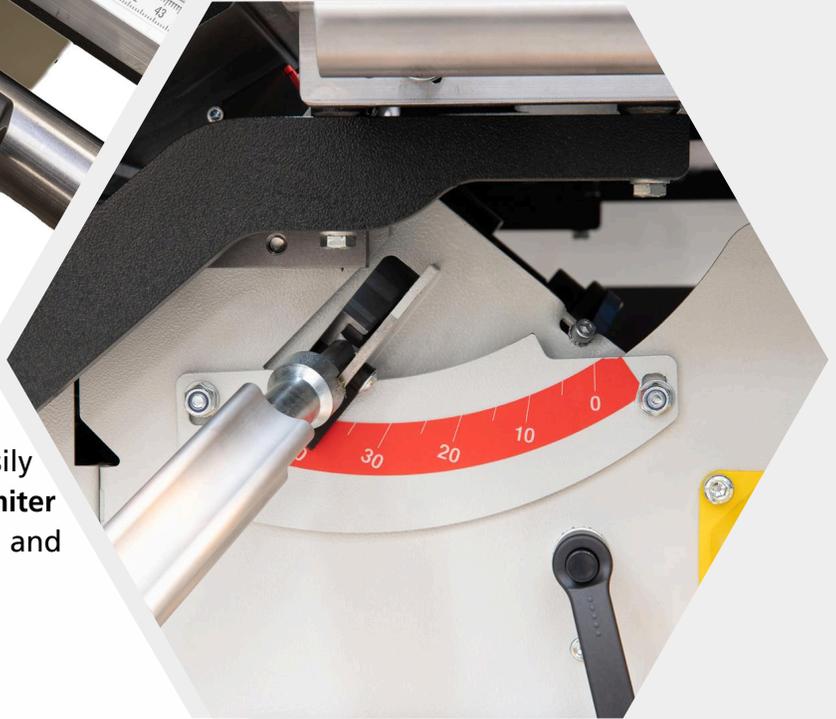

### PALLET TRUCK

The KZ panel saw is crafted for **easy mobility** using a **pallet truck**, enabling effortless relocation to **various workspaces** or yards, ideal for professionals seeking a versatile solution.

### FINE ADJUSTEMENT OF PARALLEL FENCE

The fence with a **round bar** features precise fine adjustment, facilitating **accurate settings** crucial for **speed and consistency**, particularly vital for projects where every millimeter counts.

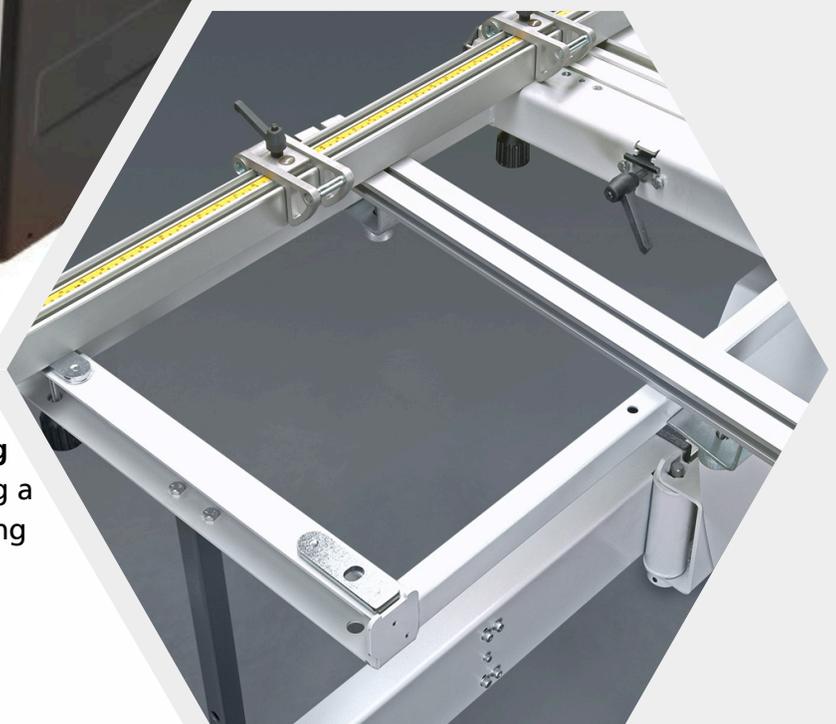

### 45° QUALITY

The saw frame of the KZ panel saw can be easily adjusted to a **45° angle**, allowing for seamless **miter sawing**, ideal for professionals seeking precision and versatility.

### 230 VOLTS OR 400 VOLTS

The KZ panel saw is also offered with a **single-phase motor**, providing 3 HP. This choice is perfect for individuals without access to a 3-phase connection, enabling **convenient** use of the saw in various locations such as yards or garages.

### OUTRIGGER TABLE ON TELESCOPIC ARM

The KZ panel saw can feature a **cross-cutting table** supported on a telescopic arm, providing a **unique solution** within its price range, ensuring quality and stability.
